

PRESS RELEASE

Cruisin' Rodeo - 17th edition

25th July 2020 at Tiare Shopping Center (A4 Villesse – Gorizia)

The large parking area of the Tiare Shopping in Villesse (Gorizia - north east of Italy) has been a very good choice to celebrate the 17th edition of an event that historically took place in Lombardy. Some fantastic American-style clubs in one of the most beautiful shopping centre in Europe were the setting for the meeting that started with most arrivals around 4:00 pm which continued until late at night.

As usual, the most important Italian meeting of American Cars was free entry with a rich Welcome Bag for all the crews who arrived on board an American car.

Several friends from Lombardy, Emilia Romagna, Veneto and Slovenia honoured the date of this 17th Cruisin Rodeo and did not want to miss. A success above expectations for the organizers who made everything in less than a month and in any case gathered about 120 crews with vehicles of great historical and classic value, muscle cars, faithful replicas of world-renowned Road Movies and many Hot Rods and Kustoms Cars as can be seen from the images. As always Harley, Chopper and Bikers in general was welcome friends.

Very appreciated the super discounts offered by SummerLand (this is the name of the outdoor area of Tiare Shopping) for the GoKart and MiniQuad slopes for young and old and well-stocked kiosks with special menu accompanied by the excellent live music of Rock The Billy 50s. The afternoon passed between photographic shoots realized by Cruisin' Life, Kustom World and Bikers Life magazines while people sympathized after the long forced distancing of the last few months and admired the splendid Pin Up present for the occasion.

As always, all types of American cars were represented: Classic, Historic, Muscle Car, PickUp, Off Road, Van, Pre-War, Hot-Rat-Street Rod... There were also some Tesla, to demonstrate that there is a tenacious thread between the past and the future.

The awards ceremony that took place punctually at 8 pm was presented by Micke Persello of Cruisin' and Kustom World magazines.
